Ten years, during which no effective measures had been put in place to prevent such disasters. Prestige , a 26 year old single hull oil tanker carrying 77,000 metrics tons of heavy fuel oil, began to break up in mid-November 2002 near the coast of Spain s autonomous community of Galicia and towed out to sea, finally sinking 19th November at Cap Finisterre. This place marks the extreme western point of the Iberian Peninsula, where the Prestige has created an oil slick along the coastline of Galicia, and caused one of the major economic and environmental disasters. Fishing is the source of livelihood for an estimated quarter million families in Galicia. In addition to contaminating of the Galician...
