Brand New Book ***** Print on Demand *****.Excerpt from The Land of Early Products, Delano, California: A Place for the Home-Seeker It is true that some wells in this locality furnish more water than others; this is due to various causes, such as depth of well; capacity of lifting power; and in some instances lack of proper development; but it is a demonstrated fact that there has never been a dry well bored in this favored district. We have splendid flowing wells in every direction from our town and the majority of them furnish from forty to one hundred inches of water, and do not diminish with constant pumping, but on the contrary usually increase. Such a bountiful water supply, with its permanency guaranteed by the majestic mountain range at its source, makes the pumping plant system of irrigation the ideal one, and it is rapidly becoming the most popular, even in localities where canal water may be had. Many people have disposed of their ditch stock and installed pumping plants. There are many advantages assigned to the pumping system; chief among which are the following: First: It is not necessary to expend time and money in an endeavor to keep down weeds and foul vegetation that come to your land from some negligent neighbor, which is invariably the case under the canal; for where there are dozens of people using water from the same ditch, there are certain to be some careless ones, and every one under the system is sure to get a share of the seed, roots, etc., which means continuous expense from year to year, for many grasses and weeds when once sown are practically impossible to kill out. Second:...
