Rosen Publishing Group,U.S., United States, 2001. Hardback. Book Condition: New. 268 x 204 mm. Language: English . Brand New Book. This new science and health series goes in-depth in examining how the human body operates. Each book corresponds with one of the body s eight major systems, including the muscular, circulatory, and reproductive systems. With diagrams and pictures to highlight the easy-to-read text, young readers will be transported into the inner workings of the body. A great resource for research and reports.Middle schoolers are always interested in knowing more about how their bodies function. This book -- with its dramatic and highly engaging graphics and no-nonsense text -- provides a refreshingly modern approach to explaining how the respiratory system works. Discussing everything from how we breathe to different types of respiratory diseases, this is an excellent teaching tool on its own or as a supplement to the middle school science curriculum.
