

Studies in the History of Mathematical Logic

Filesize: 6.37 MB

Reviews

Most of these pdf is the perfect ebook available. It is actually rally intriguing throgh reading period. I am pleased to explain how this is actually the greatest ebook we have read within my personal life and might be he finest publication for actually.
(Prof. Dario Lang)

STUDIES IN THE HISTORY OF MATHEMATICAL LOGIC

To download **Studies in the History of Mathematical Logic** PDF, please access the link under and download the ebook or get access to additional information which are related to STUDIES IN THE HISTORY OF MATHEMATICAL LOGIC ebook.

Advanced Reasoning Forum, United States, 2015. Paperback. Book Condition: New. 235 x 190 mm. Language: English . Brand New Book ***** Print on Demand *****.This volume contains seventeen essays in the history of modern mathematical logic. The first nine are concerned with the completeness of various logical calculi. The second five essays deal with the completeness of classical first-order predicate logic. One essay deals with the history of Cantor's definition of set, another with the set-theoretical reduction of the concept of relation, and a final essay is devoted to a survey of various meanings of the concept of completeness of formalized deductive theories. The essays were first presented in the national conferences of the Thematic Group for the History of Logic organized by the Department of Logic of the Polish Academy of Sciences in 1966-1971. The Advanced Reasoning Forum is pleased to make available this exact reprint of the original volume first published in 1973 by the Polish Academy of Sciences and the Department of Logic of Jagiellonian University, edited by Stanislaw J. Surma. * * * * The essays are: 1. Emil Post's doctoral dissertation (Stanislaw J. Surma); 2. A historical survey of the significant methods of proving post's theorem about the completeness of the classical propositional calculus (Stanislaw J. Surma); 3. A survey of the results and methods of investigations of the equivalential propositional calculus (Stanislaw J. Surma); 4. A uniform method of proof of the completeness theorem for the equivalential propositional calculus and for some of its extensions (Stanislaw J. Surma); 5. Kolmogorov and Glivenko's papers about intuitionistic logic (Jacek K. Kabzinski); 6. Jaskowski's matrix criterion for the intuitionistic propositional calculus (Stanislaw J. Surma); 7. Axiomatization of the implicational Godel's matrices by Kalmar's method (Andrzej Wronski); 8. A contribution to...
